

Recollection Wisconsin helps bring Wisconsin's unique collections to the world.

## THE COLLECTION

Teachers, students, family history researchers, and librarians can discover state and local resources - maps, photos, artifacts, oral histories, yearbooks, and more - all freely available in one place.

## THE COMMUNITY

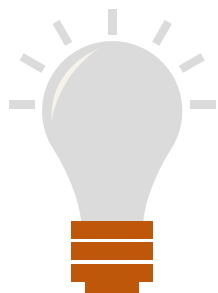

All are welcome here.

The Recollection Wisconsin community includes staff and volunteers from hundreds of libraries, archives, museums, and historical societies, large and small.

Some have well-established digital programs and some are just getting off the ground. Regardless of the size of the collection or the level of experience, you'll fit right in.

## THE EXPERTISE

We meet you where you are.

Recollection Wisconsin offers consulting, training, and support for digitization work. Our free Digital Projects Toolkit covers:

- Project planning
- Copyright
- Reformatting
- Metadata
- Access
- Preservation
